Dear Sirs:

On July 3, about seven thirty P.M., myself, my daughter, & my son all saw this unusual sight. Rising slowly from southern horizon (probably along the coastline) a top-shaped, brightly lighted object, at least twice as large as a plane. I thought we were watching "early fireworks". My son went to take a bath, as the object did not seem to move. My daughter & I watched it for another 15 min. and realized it was getting higher & brighter, & called my son back out to see its brilliance, yellow, reds - and as it got almost straight above, (but over to the west of us) headed northwest we could plainly see the outline of a jet plane - directly behind the object, with jet stream behind. Please don't explain any secrets, but would like you to know of what we saw.

(over)

Sincerely,
Mrs. [REDACTED]

~~Mr. [REDACTED]~~
Cherry Lane

Candlewood Point,
New Milford, CT.

and myself saw an object going from north to south.
after checking it out, my barn is in line of Candlewood
Point, and we saw object at same time of eve. It was
definitely not a falling star! The most brilliant
of any thing I have ever seen.

OFFICE OF THE SECRETARY

20 Aug

Dear Mrs. [REDACTED]

Attached is FTD Form 164 which is used for reporting observations of unidentified flying objects to the Air Force. In order for the Air Force to evaluate these reports, this form should be completed as fully as possible and returned to this office.

Sincerely,

Sara Hunt
